

Project Purpose and Objective

The purpose of this project is to assist Breeze Airways with assessing your knowledge and competency with Angular. In order to complete the project, you will need to have a basic knowledge of Angular, HTML, and CSS.

Requirements

The project is to develop a SPA address book with a minimum set of features. You will need to use git and Github.com as your repository. Please ensure the first commit is a blank Angular project so Breeze can review all subsequent commits. For the purpose of this assignment, there is no need to provide a persistent backend, data can be stored in memory.

Basic requirements:

- Ability to add, edit, and delete contacts
- Contacts should have a minimum set of fields:
 - Name
 - Address
 - Email
 - Phone
- Ability to view all contacts in a list sorted alphabetically by name

Feel Free to expand on the basic requirements with extra features.

Once completed send the links to your Github.com dee.evans@flybreeze.com
